We're always working to improve your experience. [Let us know what you think.](#)

When we moved to Kitsap County 3 years ago we were impressed with the dedicated teachers and administrators at SKSD. Everyone was making the best they could with outdated facilities. However, the time has come to stop using glue and construction paper to address the significant needs across our schools. The children and students of South Kitsap deserve schools that are safe, have enough classroom spaces, and meet today's learning needs. The SK school bond has been designed to not increase the tax burden on residents and high quality schools will draw people to our district, thereby increasing the tax base by spreading it across more people. Public education is available to everyone through the support of the public. Please vote yes and support the upcoming SKSD bond measure for our entire community's future.
