

REGRET

Here is the 2,000 plus page survey recently done post 2023 \$271,000,000 bond failure. Of the approx. 1151 respondents, a good guess is that at least 600 respondents were employed by the district or had union affiliations. Each respondent given the opportunity to answer nine questions. Best guess is that perhaps 400 non-coerced or otherwise influenced voters with no skin in the game answered this survey.. Noteworthy that there were very few comments in comment sections.

Another chapter in SKSD Poo Corner. Makes me wonder what the students think of this district.
