

# SKSD BOND "Bogey Owl"

*SKSD 2023 Bond Scare*

**The Boogeyman is a capricious fellow, so you never want to promise that he will do any specific harm on any specific date. All predictions of Boogeyman activity must be non-falsifiable. Just say, "The Boogeyman will get you" and leave it at that.**

**A founding principle of Boogeyman alarmism that it be couched in vague terms. Only a novice at scaremongering would tell a little brother, "Give me your candy or the Boogeyman will come and sew your eyelids closed Thursday night at 6:07 p.m. Central Time." Boogeyman leverage relies heavily on uncertainty.**
