Professional Experience: Retired, disabled 28 year USAF Officer- Combat experience in KC/RC-135 Aircraft. Former deputy group and squadron commander. Emergency Management specialist and instructor teaching senior officials in FEMA. Former Board member for Sierra Central Credit Union. Taught briefly in Hawaii and for 12 years at South Kitsap High School.

Education: BBA in Finance; MBA in Finance. BBA in Education; Certified Special Education Teacher

Statement: I taught at South Kitsap High School for 12 years and have lived with my family in our community for 16 years. My son is a graduate of SKHS. The district has many strengths but faces difficult challenges. The District has poor testing scores and 20% of our students prefer to attend school out of district. We need to focus on our children’s education to prepare them to integrate into a complex world and be successful in their chosen endeavors.

The District is spending huge amounts of taxpayer money on administrators and on programs that other school districts determined too costly for the amount of students they serve. The District’s continued hiring and rising payroll with great benefits has grown at an unsustainable rate and threaten to make yearly levies a reality just to make the payroll. With 37% of the district’s students on free or reduced lunch programs and an aging population; adding additional taxes reflects a lack of understanding of our community needs. Cutting costs allows our money to go where it should- to our students and their needs. It’s time for the District and school board to be accountable to the citizens of our community.

Biography: I have been a resident of Port Orchard since 1978. My wife, Shirley, and I raised our three sons here. They all attended and graduated from South Kitsap schools. I am an attorney, practicing in Port Orchard, and Shirley is a retired teacher. I have served on the South Kitsap School Board since 2012, acting as President, Vice President, and Legislative Representative. I also serve on the Board of Directors of the South Kitsap Public Education Foundation. You can view my resume at gjlaw.com.

Statement: It has been an honor to serve on the South Kitsap School Board the past eight years. I do this work because I truly believe that public education is the foundation of our democracy and the heart of our community. During my service on the Board, our District has instituted many innovative programs, like AVID and International Baccalaureate. We have maintained the best Career and Technical Education Department in the State and we have expanded our music and arts programs. South Kitsap now has an orchestra in addition to our award-winning vocal and band programs. The District has also made progress on safety and security, including securing buildings, adding security personnel and a threat assessment protocol. We passed M&O levies and recently a Capital Projects Levy. Thanks to the support of our Legislature, we have been able to retain a great faculty and support staff to keep our schools on the cutting edge of education. I hope to continue serving the citizens of our District and our great students as School Board Director for District 5.

Elected Experience: I have been a homeowner in Port Orchard since 1997. I lived in Dutch Harbor Alaska prior to relocating to Port Orchard. I have a daughter who is a student in the South Kitsap School District.

Other Professional Experience: I currently work for [Safeway.com](https://www.safeway.com).
Education: I received an AA in accounting from Spokane Community College in 1982.
Community Service: I have previously run for Port Orchard City Council and would like to have an opportunity to serve our community as a school board member at SKSD

Statement: I feel a school board member must keep in mind that the money the school receives came from the good people of our community and it must be put to good use. When I was in High School, I was inspired by a teacher and coach who showed me that teamwork accomplishments are greater than the accomplishments of an individual. I hope to apply that same principle to my service on the school board if you will give me that opportunity. Last year a 19% pay raise to all District employees was approved. Earlier this year the District announced that 40 teachers needed to be cut because of a budget shortfall. That number was reduced to 20 and then recanted, by saying that no layoffs were needed. Now I'm hearing that there is a 20% pay raise coming this fall, and the cost to educate 9,880 students is projected to be \$149,230,458. Due to this pay raise, the additional cost far exceeds the \$146,638,811 revenue and makes a deficit of \$2,591,647. Please give me the opportunity to help fix this problem. Sincerely Keith Law

Biography: I am a retired Navy Submarine Force Veteran, with 22 years of Active Duty experience, including multiple tours of duty in Kitsap County, as well as supporting combat operations in Iraq as a counter IED Electronic Warfare Officer.

For the last 9 years, I have been a Civil Service employee in various roles at the Naval Undersea Warfare Center in Keyport. I am currently filling an appointment for Director of District 1 on the SK School Board; I previously served 3 years on the Board of Directors for the Central Kitsap Foodbank from 2015-2018.

Statement: We entrust the District with the most important thing in the lives of us as parents, the safety and education of our children, to help prepare them for the challenges of life. Ensuring the safety, security, and education is the most important task the Board has. I am a South Kitsap Parent, for the last 10 years I have lived in District 1, both of my daughters have attended Sunnyslope, Cedar Heights, and South Kitsap High School, and I have seen firsthand the positive impact this district has had on their lives.

I believe firmly that we should be making our students ready for any career that they choose to pursue, and am a strong advocate for our Arts/Band, Career and Technical Education (CTE), and the Junior ROTC Program, all of which are nationally recognized for their excellence.

For the last 31 years, I have served this Nation, County, and Community in various capacities from Active Duty, Community Service with the Central Kitsap Foodbank, and most recently as the appointed Director for District 1. Service in my DNA, and I look forward to serving you for a 4-year term.

Email: John@Berg4SK.org
Website: www.Berg4SK.org

Elected Experience: Precinct Committee Officer.
Professional Experience: Professional Registered Parliamentarian (consultant in properly running meetings and organizations), retired real estate appraiser and deputy county assessor.

Education: Associate Degree from Olympia College, BA in psychology from Seattle Pacific University and post graduate studies in mental health counseling at SPU.
Community Service: Member of South Kitsap School District's Instructional Materials Committee (2017-present); Member of SKSD Community Facility Advisory Committee (2018); attended nearly all SKSD Board meetings as an observer since June 2017. Boy Scouts of America adult leader. Currently president of the Washington State Association of Parliamentarians. On the board of trustees for two other national nonprofit organizations.

Statement: The duty of the school board is to set policy, establish and monitor the budget, and to hire, fire, and supervise the superintendent. In these functions, the board decisions should reflect the needs of the students and the values of the community, taxpayers, and parents, rather than being dictated from Olympia, Washington DC, or from any other organization. After observing the board meetings for two years, I will work to ensure that the board has more deliberations on the issues, rather than routinely adopting all the recommendations that come before them.

I have grandchildren attending the SK Schools. Both grandfathers were Bremerton businessmen. Two grandmothers were school teachers, as have been a brother, sister, brother-in-law, daughter-in-law and daughter, so I have had exposure to the needs of both students and educators.

I believe that a good public education system is essential to the success and future of our community. Basic education is key, but exposure to arts and culture is necessary. Children must understand true history in order to avoid repeating it. History should not be glossed over. Children need to be taught to think creatively and reason rather than simply following directions.

Biography: Worked at the Puget Sound Naval Shipyard as a Machinist in the Apprentice Program. I'm an Instruction and Classroom Tech for the Medical Assisting Program at Olympic College.

A Kitsap County graduate from Central Kitsap High School and Olympic College. A graduate from University of Alaska Anchorage in Medical Assisting and Phlebotomy.
A parent volunteer for 21 years for all 7 of my kids' school sports or events. Volunteer for various conferences and events in healthcare, business, and voter registration throughout Washington state. Organized and coordinate events with local and other states' automotive groups. Currently, on SK CTE advisory board.

Statement: I believe that "public" school means "community". Our schools belong to us, the community, and I hope to bring more focus and attention to that as a member of the school board. The word 'transparency' is an often-used term these days but I would like to work hard to introduce true and productive transparency, especially regarding decisions made within the district involving safety in our schools.

I have children who have graduated from SK and I currently have 2 still attending. I have a very strong sense of pride and investment in our schools. I recognize that our children thrive under different learning structures and that sometimes it takes an alternative environment to foster and nurture a young person's interest and ability to excel. I am a strong advocate for both our traditional teaching environments as well as CTE programs that introduce students to many other pathways to post-secondary success. I am a strong believer in "career ready" graduates.

I moved to Kitsap in 1987 as the daughter of a retired Navy Chief. I enjoy living in an area that is open, welcoming, multicultural and diverse. I would like to help make our schools be safe, transparent, and community-focused.
