**Email:** [jwpdaily@juno.com](mailto:jwpdaily@juno.com)

**Professional Experience:** Retired, disabled 28 year USAF Officer- Combat experience in KC/RC-135 Aircraft. Former deputy group and squadron commander. Emergency Management specialist and instructor teaching senior officials in FEMA. Former Board member for Sierra Central Credit

Union. Taught briefly in Hawaii and for 12 years at South Kitsap High School.

**Education:** BBA in Finance; MBA in Finance. BBA in Education; Certified Special Education Teacher

**Statement:** I taught at South Kitsap High School for 12 years and have lived with my family in our community for 16 years. My son is a graduate of SKHS. The district has many strengths but faces difficult challenges. The District has poor testing scores and 20% of our students prefer to attend school out of district. We need to focus on our children’s education to prepare them to integrate into a complex world and be successful in their chosen endeavors.

The District is spending huge amounts of taxpayer money on administrators and on programs that other school districts determined too costly for the amount of students they serve. The District’s continued hiring and rising payroll with great benefits has grown at an unsustainable rate and threaten to make yearly levies a reality just to make the payroll. With 37% of the district’s students on free or reduced lunch programs and an aging population; adding additional taxes reflects a lack of understanding of our community needs. Cutting costs allows our money to go where it should- to our students and their needs. It’s time for the District and school board to be accountable to the citizens of our community.

**Biography:** I have been a resident of Port Orchard since 1978. My wife, Shirley, and I raised our three sons here. They all attended and graduated from South Kitsap schools. I am an attorney, practicing in Port Orchard, and Shirley is a retired teacher. I have served on the South Kitsap School Board

since 2012, acting as President, Vice President, and Legislative Representative. I also serve on the Board of Directors of the South Kitsap Pubic Education Foundation. You can view my resume at [gjwlaw.com](http://gjwlaw.com).

**Statement:** It has been an honor to serve on the South Kitsap School Board the past eight years. I do this work because I truly believe that public education is the foundation of our democracy and the heart of our community. During my service on the Board, our District has instituted many innovative programs, like AVID and International Baccalaureate. We have maintained the best Career and Technical Education Department in the State and we have expanded our music and arts programs. South Kitsap now has an orchestra in addition to our award-winning vocal and band programs. The District has also made progress on safety and security, including securing buildings, adding security personnel and a threat assessment protocol. We passed M&O levies and recently a Capital Projects Levy. Thanks to the support of our Legislature, we have been able to retain a great faculty and support staff to keep our schools on the cutting edge of education. I hope to continue serving the citizens of our District and our great students as School Board Director for District 5.

**Professional Experience:** 2013-2019 Board Member, Washington Municipal Clerk’s Association; Member Secretary of State Archives Oversight Committee

**Education:** Graduate South Kitsap High School; Associate of Arts in Business Administration, University of Phoenix

**Community Service:** 2015-2017 South Kitsap School Supporters

**Statement:** I have lived in South Kitsap for over 30 years. I am a South Kitsap High School alumni and I have two daughters; one South Kitsap High School graduate and another entering her sophomore year. I have spent 27 years working with and for elected officials in Kitsap County. My career has prepared me for this opportunity to serve South Kitsap School District and give back to the community.

The time is now to make a difference in South Kitsap School District. We need to work with our families when looking toward the future and the vision of our District. Providing the best public education system for our students is in everyone’s best interest and helps to build and reinforce the sense of pride in our community.

I am deeply invested in our community and believe the greatness begins with our youth. My commitment is to bring a renewed level of confidence in the South Kitsap School District through communication, transparency and fiscal responsibility. I respectfully ask for your vote and confidence for the next four years.

**Professional Experience:** Personnel Director for one single Navy Base, and four dual Navy and or Defense Activities. Each a change of location and a promotion.

**Education:** Bremerton High, Olympic College, University of Washington, Federal Executive Institute.

**Community Service:** Taught night classes in the Master’s program at Virginia Commonwealth University and Virginia State University donating salary to two separate Scholarships funds for students having economic need.

Served on the CKSB and then the SKSB Budget Committee for over ten years. Served on the Governor of Virginia’s “Jobs for Virginians” Board and advisory Board for Richmond and Chesterfield County Virginia School Boards.

**Statement:** As the Director of Personnel for eight Defense activities covering my thirty five year career, the last seventeen at the highest field level, the duties and responsibilities not only cover the on basic functions but also long term planning based on estimated turnover and projected workload .. At two of the activities I chaired the on base school board .

In Virginia I was the senior member on the School Boards advisory council on long term employment.

Working with School Boards my organization developed employment training and jobs for Mentally handicapped young adults ...

By comparison, the most important function a School Board has is selecting a superintendent who has the top qualities of leadership and will remain with the District as a career. This means the Board must see that support staff is trained and provided the experience and education necessary to compete for the top job. If you are successful, you will have developed a backup system for your District, provided promotional opportunities for loser level staff and established long term stability which pays off in spades. This allows for long term planning regarding enrollment, budget, and staffing, the true purpose of a Board.

**Biography:** Worked at the Puget Sound Naval Shipyard as a Machinist in the Apprentice Program. I’m an Instruction and Classroom Tech for the Medical Assisting Program at Olympic College.

A Kitsap County graduate from Central Kitsap High School and Olympic College. A graduate from University of Alaska Anchorage in Medical Assisting and Phlebotomy.

A parent volunteer for 21 years for all 7 of my kids’ school sports or events. Volunteer for various conferences and events in healthcare, business, and voter registration throughout Washington state. Organized and coordinate events with local and other states’ automotive groups. Currently, on SK CTE advisory board.

**Statement:** I believe that “public” school means “community”. Our schools belong to us, the community, and I hope to bring more focus and attention to that as a member of the school board. The word ‘transparency’ is an often-used term these days but I would like to work hard to introduce true and productive transparency, especially regarding decisions made within the district involving safety in our schools.

I have children who have graduated from SK and I currently have 2 still attending. I have a very strong sense of pride and investment in our schools. I recognize that our children thrive under different learning structures and that sometimes it takes an alternative environment to foster and nurture a young person’s interest and ability to excel. I am a strong advocate for both our traditional teaching environments as well as CTE programs that introduce students to many other pathways to post-secondary success. I am a strong believer in “career ready” graduates.

I moved to Kitsap in 1987 as the daughter of a retired Navy Chief. I enjoy living in an area that is open, welcoming, multicultural and diverse. I would like to help make our schools be safe, transparent, and community-focused.

**Website:** [www.Berg4SK.org](http://www.Berg4SK.org)

**Elected Experience:** Precinct Committee Officer.

**Professional Experience:** Professional Registered Parliamentarian (consultant in properly running meetings and organizations), retired real estate appraiser and deputy county assessor.

**Education:** Associate Degree from Olympia College, BA in psychology from Seattle Pacific University and post graduate studies in mental health counseling at SPU.

**Community Service:** Member of South Kitsap School District’s Instructional Materials Committee (2017-present); Member of SKSD Community Facility Advisory Committee (2018); attended nearly all SKSD Board meetings as an observer since June 2017. Boy Scouts of America adult leader. Currently president of the Washington State Association of Parliamentarians. On the board of trustees for two other national nonprofit organizations.

**Statement:** The duty of the school board is to set policy, establish and monitor the budget, and to hire, fire, and supervise the superintendent. In these functions, the board decisions should reflect the needs of the students and the values of the community, taxpayers, and parents, rather than being dictated from Olympia, Washington DC, or from any other organization. After observing the board meetings for two years, I will work to ensure that the board has more deliberations on the issues, rather than routinely adopting all the recommendations that come before them.

I have grandchildren attending the SK Schools. Both grandfathers were Bremerton businessmen. Two grandmothers were school teachers, as have been a brother, sister, brother-in-law, daughter-in-law and daughter, so I have had exposure to the needs of both students and educators.

I believe that a good public education system is essential to the success and future of our community. Basic education is key, but exposure to arts and culture is necessary. Children must understand true history in order to avoid repeating it. History should not be glossed over. Children need to be taught to think creatively and reason rather than simply following directions.
