I support candidates who'll invest in education

Mike Nicosia, South Kitsap Published 11:02 a.m. PT Oct. 9, 2019

Education is the foundation for all wealth in any society. The greater the education investment, the more wealth generated.

We all want our education dollars to be spent with efficiency and proper oversight. But Americans should understand that the "cost cutting" mentality is what has led to the serious damage of Boeing's reputation.

This is why I support Greg Wall in the race for the South Kitsap School District. He is a trusted and known entity who understands the nature of "investment" as opposed to the cost-cutting of his opponent.
