Your vote is oh so very important. The South Kitsap School District Board of Directors needs your immediate corrective action.

There are two two outstanding selections for open director seats. John R. Berg and Jeff Daily.

Both of these men will bring unique skill sets to the District. Berg has been an active volunteer and has prepared himself to hit the ground running by attending most school board meeting. He also believes rubber stamping issues without deep research has got to stop. Daily brings high school teaching, fiscal responsibility, and the desire for each student to get a corner stone education without all the fluff.

Incumbent Greg Wall must go! He drove the into district financial ruin with ridiculous decisions. Among them 20% pay increases for teachers, paying superintendents rent when he was making in excess 200k. Being Board president and approving expenditures knowing the monies were not available leading to a reduction in staff.

Please think of or communities future and students by voting for Daily and Berg.
