

Capital Levy Projects Quarterly Update

FEBRUARY 2021

How are priorities established?

- Compliance with Levy Resolution
- Need
- Level of complexity/professional assessments needed
- Limit interruption to instructional day
- Levy Cashflow

What was approved by voters?

Capital Improvements \$18,951,553	Safety & Security \$2,030,325 \$24,694,378	Instructional & Support Technology \$3,712,500
	estimates were considered to SCAP "state match" at the ti	•

Completed Projects

Project	Project Category	Estimated Amount with contingency	Expended	Net	Complet
Interactive Projectors Middle & High School	Instr/Supp Tech	\$550,000	\$504,639	\$45,361	Yes
Software Licensing	Instr/Supp Tech	\$467,500	\$15,565	\$451,935	Partial
Electronic Card Access at Middle Schools	Safety Security	\$275,000	\$230,870	\$44,130	Yes
Expand Access Control Elementary Schools	Safety Security	\$110,550	\$137,933	(\$27,383)	Yes
Roofing Marcus & Sedgwick	Cap Improv	\$1,725,000	\$944,585	\$780,415	Yes
DO Roof Repairs	Cap Improv	\$345,000	\$377,523	(\$32,523)	Yes
Sunnyslope Roof Repairs	Cap Improv	\$575,000	\$523,273	\$51 ,727	Yes

Completed Projects

				2011년 1월 1911년 1월 19 1월 1911년 1월 1911년 1월 1월 1911년 1월 1911년	
Project	Project Category	Estimated Amount with contingency	Expended	Net	Complete?
Security Cameras - Middle Schools	Safety & Security	\$316,250	\$273,929	\$42,321	Yes (Revised budget)
Intercoms	Safety & Security	\$460,000	\$479,746	(\$19,74 6)	Yes
Portable Classroom Roofing	Cap Improv	\$575,000	\$205,255	\$369,74 5	Phase 1 2020 Projects Complete
Wooden Ramp Replacements	Cap Improv	\$460,000	\$300,071	\$159,92 9	Phase 1 2020 Projects Complete
Portable Exterior Envelope Repairs	Cap Improv	\$552,000	\$201,261	\$350,739	Phase 1 2020 Projects Complete
Net difference to date:				\$2,216,650	

Projects Underway Now

Project	Project Category	Estimate with Contingency	Spent so far	Encumber ed	Status
OCR Compliance – Accessibility and SKHS Restroom Remodel	Cap Improv	\$2,329,000	\$747,000	\$1,196,99 1	Phase 1 – SKHS core student restrooms, AD ramps, north parking I ADA parking and shop are in construction. Expected completion N 2021.
Fire Alarm Replacement, SKHS	Safety & Security	\$517,500	\$558,795	\$53,465	Substantially completene nearing final inspection sign-off.

OCR Compliance Work Underway

New platform, ramp and stairs at common projects for ADA classroom and teacher lounge a New ADA ramp at commons and new ADA lift to access shop classroom level in common pr

OCR Compliance Work Underway

SKHS north parking lot ADA improvements complete - new pavement, ramp, striping, sign

SKHS Restrooms

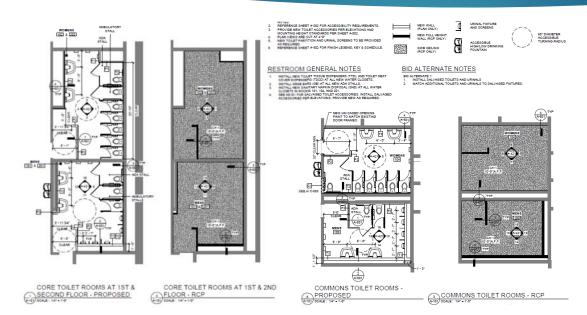

Renovation of six main student restrooms at SKHS

Project goal to make restrooms ADA compliant and replace worn and dated fixtures and fir

Before construction - noncompliant ADA fixtures and layout, peeling flooring, corroded stal

SKHS Restrooms

New design swaps men's a women's restrooms to maximize space for fixture and meet ADA clearances

New finishes and fixtures a durable, low maintenance a Attractive

Work includes new ADA compliant drinking fountair with bottle fillers

SKHS Restrooms

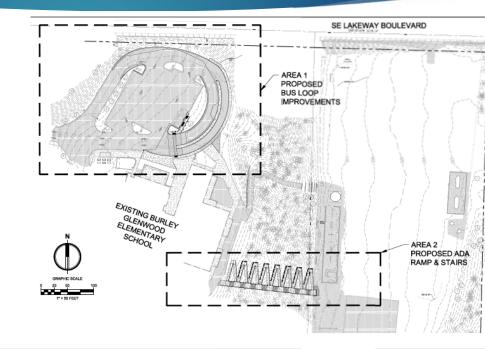

Construction progress showing new epoxy floors, tile wall finish, plastic composite stall partitions

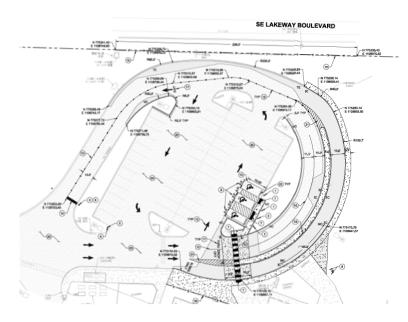

Burley Glenwood ADA Project

Existing steep path navigates over 40' elevation change between school and playfield

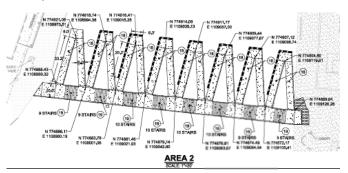

Burley Glenwood ADA Project

Project Benefits:

- New ADA compliant ramp and 8'wide stairs linkin school to playfield
- Reconfigured ADA compliant parking
- New raised sidewalk, signage and lane markings to improve safety
- Reconfigured bus loop and parent drop off to improve traffic flow

The SK Community Pool is a complex renovation project.

The pool building is a system where the water temperature, indoor air temperature and circula water chemicals and building envelope need to be balanced.

The renovation must consider all these areas as as specialized pool code requirements, ADA accessibility and features unique to SK like the hydraulic adjustable pool floor.

The following slides will **show some** of the challenges of this facility.

The pool roof has comprehensively failed after less than 15 years due to inadequate interior ventilation. There are major water leaks throughout the entire roof. The ventilation system does not provide enough circulation and excessive moisture builds up. Chlorine corrodes all metal components in the building, ru out roof fasteners, ventilation equipment, doors and lockers.

The German designed and installed adjustable hydraulic floor and bulkhead were state of the art equipment in the 1970's.

This style of movable floor has been out of production for decades. SKHS equipment is beyond end of life and no longer functions correctly. Parts are difficult to find, and few technicians can work on the system. The design of this flooring system makes maintenance and cleaning challenging.

The locker rooms are in poor condition from decades of use and a harsh environment. They not ADA compliant. The pool does not have public restrooms for spectators or family chang rooms which are now common at public pools.

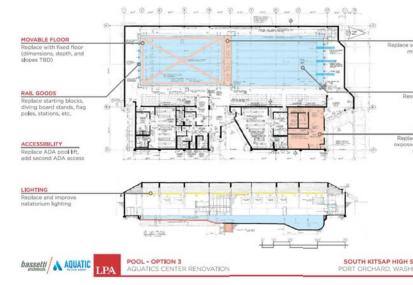

The pool lighting has been found to not m code by Kitsap Public Health. In an agreement with the health department, w operate additional lifeguard coverage due the inadequate lighting level.

Our electrical engineers have determined new main electrical panel and undergroun wire feed will be needed for the renovatio and Labor and Industries is requiring that replace the original undersized electrical transformer serving the building.

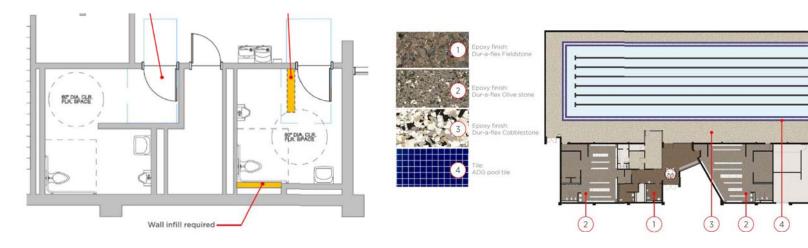

The SK Community Pool Renovation budget as envisioned in the Capital Projects Levy did not include all the necessary repairs and replacements that are needed.

Items that were not included:

- Roof replacement
- Re-engineering and replacement of the ventilation system
- Locker room renovation
- ADA compliance upgrades

We have engaged our consultant design team to address all the deficiencies at the pool in a comprehensive and cost sensitive manner. The first design phase of schematic design will b complete by mid-March as well as a detailed cost estimate.

Project Schedule

- Design: 12/2020 6/202
- Permitting: 5/2021 7/2021
- Bidding: 7/2021 8/202
- Construction: 9/2021 7/202

Projects in planning / design phase

Project	Project Category	Estimate w/Contingency	Status
Burley Glenwood Field Access	Cap Improvements	\$460,000	Project in permit review. Bidding February/March 2021
SK Community Pool	Cap Improvements	\$5,244,000	Design underway
OCR Compliance – Accessibility	Cap Improvements	\$1,131,000	Phase 2 – SKHS auditorium seating locker rooms, gymnasium restroom staff restrooms, service counters Phase 3 – Discovery HS restrooms Design underway
Portable Classroom Roofing	Cap Improvements	\$294,000	Prioritizing and pricing 2021 project
Wooden Ramp Replacements	Cap Improvements	\$99,000	Prioritizing and pricing 2021 project
Portable Exterior Envelope Repairs	Cap Improvements	\$278,000	Prioritizing and pricing 2021 project

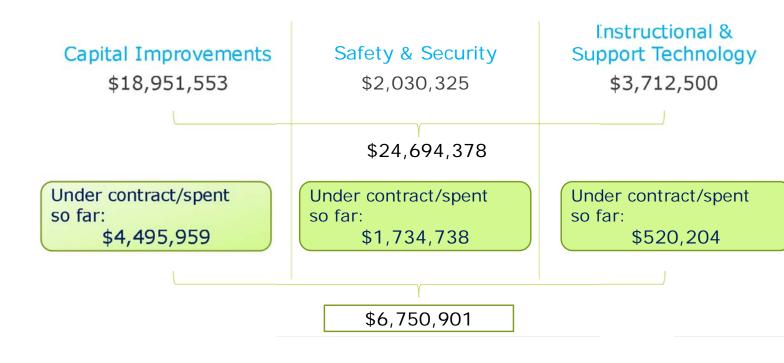

Projects in planning / design phase

Project	Project Category	Estimate w/Contingency	Status
Marcus Whitman and John Sedgwick Tracks	Cap Improvements	\$1,725,000	Consulting contractors and obtaining pricir
Central Kitchen Backup Generator	Safety and Security	\$218,000	Design in prog ress. This replaces previous envisioned generator at Transportation Fac

Projects in planning summary:

- SK Swimming Pool
- > BG Accessibility/Parking
- Additional work on portables
- > Student Computer Devices
- MS Tracks
- Central Kitchen Backup Generator

Tracking Expenditures

What is next?

- Complete design work on pool, collaborate with city officials on requirements for permitting, design bid package/drawings
- Teaching & Learning in collaboration with Instructional Technology staff will plan for student device procurements, training, and deployment
- Track project architect/contractor selection
- OCR Compliance phase 2 permit and bidding
- Burley Glenwood Field Access bidding and construction
- **Central Kitchen Backup** Generator bidding and construction

Promises made. Promises kept.

Thank you
