

The Illustrious "The One & Only"

J.R. Berg, PRP

Currently serving in role of Vice-Chair of the Board

'Our Idiot of the Month'

A few troubling facts to consider:

Director Berg maintains which he purports is a "Private & Educational" website which is in fact nothing more than a "Hit Site" he uses to blog, retaliate, insult, and denigrate members of our community. He is especially hyper focused on Director Jeff Daily. Director Daily most often does not share Director Berg's views on the South Kitsap School District or the Board of Director's performances.

If you decide to visit Director Berg's website, first ask yourself the following:

- **Why has Director Berg posted the official School Board's legal responses to the lawsuit against the board on his private website?**
- **Why does Director Berg's "Private & Educational Website" look so much like South Kitsap School District's Official Website?**
- **Is Berg's discourse and behavior acceptable? Why do we allow these behaviors to continue from an elected SKSD board member?**
- **Is this the type of person with these personality traits fit to serve as a board director?**
- **Should Director Berg be nominated to serve on the school board as the board president, & should we consider recalling him from office?**

Should you choose to visit Director Berg's "Private & Educational Website" and if you can get past his customary "fluff and prattle", you will find the majority of his website posts (essentially hate pieces) to be persistent and inappropriate attacks on anyone in our community who does not agree with him on all school board matters. He considers himself to be above all others and in essence has become a sort of one-man policy maker.

Here is the location of Director Berg's Web Site
