

SKSD BOARD'S NEW KING BABE

What is a false claim - you might ask?

You be the judge as to whether or not a false claim was uttered at the last SKSD Board meeting. As Paul Harvey famous entry line on his radio show always said:

Now You Know, "The Rest of The Story"

At the recent and well attend South Kitsap School Board meeting held on February 15, 2023, some an interesting claim was made by school board Director Jiffy Wilson. It was during the last 10-minutes of the board meeting.

Mr. Wilson was attempting to 'damper' the veracity of a public comment made at the 02-15-23 SKSD Board meeting. He claimed 'whoever' posts on the CSSKS website that they failed to include what he claims was essentially the "smoking gun" email in hopes of defusing a comment made by a community member who goes by the moniker of "Beach Troll". It was an email, which has yet to be proven genuine since an original copy of the alleged email has yet to be provided. Instead one can read a cut and past semblance of what the email was purported to state here:

Many of you may be aware that Director Berg maintains a toxic and vile website in which he defames Jeff Daily as well as other members of our community. Most folks believe his website bears a striking resemblance to the official entry page to South Kitsap School District's website. Director Berg continues to publish his own alternative facts to fit the narratives which he and the other board directors seek. This of course includes Director Wilson. I would link his website here but I don't advertise that kind of trash on the CSSKS website.

It really makes no difference. The meeting in the parking lot after the board meeting on the 15th was interesting. Director Wilson again claimed that CSSKS failed (intentionally) to leave out the purported email attached above. But really, what difference would it even make even if the email was actually real? Seems more like a way to whine a bit and sooth a ruptured ego. I stood there while Director Wilson was handling his juice bottle, wondering if he was preparing to throw it at me. Feeling threatened, I retreated into Director Daily's truck and closed the door. More on that exchange at a later time.

One must deduce that as president of the "One Unit" as he calls the board, the he was signing on behalf of the entire school board. Frankly, my take away in all of this drama is that isn't this just another rehash of past grudges and frustrations that Mr. Wilson and the other board members cling to regarding Director Daily. Why do they do this? Because the board majority continues to fail to 'rope in' their *Yippee-Ki-Yay-Yo* vocal minority board director. We know what the real facts are, they are not Mr. Wilson's alternative canned facts. I believe the ass hat will remain prominently perched on his head until another board member is crowned. After all, ruptured egos are so very, very fragile.

Find here the last 10 minutes of the board meeting held on 02-15-23: https://youtu.be/9_RxLHcvK74 for your viewing pleasure. More or less a rebuttal of sorts by Mr. Wilson regarding what he believes his demand letter to Mr. Daily really meant.

About Board Legislative Overreach

And for all who are interested in what our School Board's Legislative Representative (Kate Espy) limits are in speaking for the board, and us for that matter, last but not least a video clip of the heated discussion that ensued when the board elected new [Director Kate Espy to have unlimited control of how she lobbies our legislature on behalf of the school board.](#) So what about us? is this what we want or school board to do: <https://youtu.be/DQKMRr14wcQ>

I personally find this decision by the board majority to be reprehensible. It is an affront to all of us. It stands against all norms of how our community is supposed to be represented by this school board. Both

Director Espy also needs to be replaced along with Director Berg during the next election cycle this November. Now is the time for all of you to take action, write letters to the papers, attend and speak at school board meetings. We all must bear witness to the incompetence and unethical behaviors of this school board. Judge for yourselves what are the facts so you can easily identify the alternative facts being presented by Berg and Wilson. These alternative narratives they continue to create will in time be their downfall. Sooner, not later.
