

***PUBLIC DISCLOSURE COMPLAINT PROCESS ABUSES
BY THE SUPPORTERS OF SOUTH KITSAP SCHOOLS***

For far too long political action committee (PAC'S) are weaponizing the Washington State's Public Disclosure Commission's legitimate complaint process. Specifically - The Supporters of South Kitsap Schools is corrupting and delegitimizing the PDC complaint process. They are using it as a "Poor Man's Litigation Tool". They do this to intimidate and stifle our public's free speech rights and opinions.

Anyone, any other group, and other committee that disagrees and/or presents alternative views and opinions contrary are systematically targeted by these unscrupulous political action committees. These committees weaponize a legitimate compliant process that is diligently managed and enforced by our Washington State Public Disclosure Commission.

In the present case(s), the committee known as SSKS is continuing to misuse and abuse the PDC complaint process. SSKS is more like a gang, yet SSKS is the "official" and sole political action committee

representing our South Kitsap School District's political goals and activities.

This group continues to commit both slander and defamation against members of the Citizens Supporting South Ktisap Schools and the Committee Opposing South Kitsap Schools District Bonds and Levies, as well as other individual and school officials who do not fully or "correctly" support the district's bonds and levy programs and financial management of taxpayer dollars.

The Supporters of South Kitsap School District is predominately made up of school district teachers, administrators, and other district employees. The 'five' unions representing SKSD use the SSKS PAC to further their efforts to increase both pay and benefits of their local union members.
